ABOUT ME

Senior SAP CPI Consultant with **5+ years** of experience in SAP integration technologies, specializing in SAP CPI, PI/PO, and hybrid integration landscapes. Proven expertise in designing, developing, and optimizing scalable integration solutions, ensuring secure, high-performance data exchange across SAP and non-SAP systems. Seeking to contribute deep technical knowledge and integration best practices to complex enterprise transformation initiatives.

PROFILE SUMMARY

- SAP CPI Consultant with **5+ years of experience** in SAP integration technologies including **SAP CPI, SAP PI/PO, and SAP Integration Suite**.
- Extensive expertise in designing and implementing **cloud, hybrid, and on-premise integration architectures** for **SAP and non-SAP systems**.
- Strong experience in **SAP CPI iFlow development** using **Groovy scripting, Message Mapping, Value Mapping**, and adapters such as **SOAP, REST, OData, SFTP, IDoc, and RFC**.
- Proven track record in **SAP S/4HANA integrations**, including **ECC to S/4HANA migration** and **PI/PO to CPI transition** projects.
- Hands-on experience with **API-led integration, SAP API Management, and RESTful web services** following enterprise integration patterns.
- Skilled in security configurations using **OAuth 2.0, X.509 certificates, PGP encryption/decryption, and SAP Secure Store**.
- Expertise in **error handling, message monitoring, logging, performance tuning, and troubleshooting** using **SAP CPI Monitoring tools**.
- Strong knowledge of SAP connectivity options including **SAP Cloud Connector, HTTPS, JMS Queues, and event-based integration** scenarios.
- Experience in **integration governance, interface documentation, transport management, and CI/CD pipelines** within **SAP CPI landscapes**.
- Adept at collaborating with **functional consultants, ABAP teams, and business stakeholders** to deliver scalable integration solutions.
- Experience working in **Agile/Scrum environments** using tools like **JIRA and Confluence**, with exposure to **DevOps practices**.
- Strong analytical, problem-solving, and communication skills with **client-facing consulting experience** across multiple industries.

TECHNICAL SKILLS

- **Integration Platforms:** SAP Cloud Platform Integration (CPI), SAP Integration Suite, SAP Process Integration / Process Orchestration (PI/PO), SAP API Management
- **SAP & Enterprise Systems:** SAP S/4HANA, SAP ECC, SAP SuccessFactors, SAP Ariba, SAP Hybris / SAP Commerce, SAP CRM
- **Adapters & Protocols:** SOAP, REST, OData, IDoc, RFC, Proxy, SFTP, FTP, HTTPS, AS2, JMS
- **Development & Mapping:** Groovy Scripting, Message Mapping, Value Mapping, XSLT, User-Defined Functions (UDFs)
- **API & Integration Patterns:** API-led Integration, RESTful Web Services, Enterprise Integration Patterns (EIP), Event-Driven Architecture
- **Security & Authentication:** OAuth 2.0, X.509 Certificates, PGP Encryption / Decryption, SSL/TLS, SAP Secure Store
- **Connectivity & Cloud:** SAP Cloud Connector, Hybrid Integration Scenarios, BTP Connectivity Services
- **Monitoring & Troubleshooting:** SAP CPI Monitoring, Message Processing Logs, Exception Handling, Performance Tuning, Root Cause Analysis

- **Migration & Modernization:** PI/PO to CPI Migration, ECC to S/4HANA Integration, Cloud Integration Best Practices
- **DevOps & Transport Management:** CTS+, CI/CD Pipelines, Git, Transport Management Service (TMS)
- **Methodologies & Tools:** Agile / Scrum, JIRA, Confluence, ServiceNow

EDUCATION

- Masters in Computer Science from Trine University - Texas, USA (Jul 2023 - May 2025)

PROFESSIONAL EXPERIENCE

Senior SAP CPI Integration Consultant

ConocoPhillips, Houston, Texas, USA || Sep 2025 – Current

Responsibilities:

- Designed and implemented enterprise integrations using **SAP CPI** to connect **SAP S/4HANA**, **SAP ECC**, and external systems across oil & gas business domains.
- Built and optimized **iFlows** using **Groovy scripting**, **Message Mapping**, **Content Modifiers**, and **XSLT** for complex data transformations.
- Developed real-time and batch integrations using **REST**, **SOAP**, **OData**, **IDoc**, and **SFTP** interfaces.
- Implemented secure integration mechanisms using **OAuth 2.0**, **SSL certificates**, **Basic Authentication**, and **SAP Cloud Connector**.
- Supported SAP landscape modernization initiatives including **SAP S/4HANA migration** and legacy interface decommissioning.
- Monitored and troubleshoot integration issues using **SAP CPI Monitoring**, **Message Processing Logs**, and **Exception Subprocesses** to ensure high availability.
- Collaborated with functional and technical teams to translate business requirements into scalable **SAP BTP Integration Suite** solutions.
- Ensured compliance with **SAP Clean Core principles**, integration best practices, and enterprise security standards.
- Performed performance tuning and error-handling enhancements to support high-volume transactional processing.
- Created technical documentation and supported delivery using **JIRA**, **Confluence**, **Postman**, and **Git**.

SAP CPI Integration Consultant

JPMorgan Chase, Plano, Texas, USA || Oct 2024 - Aug 2025

Responsibilities:

- Designed, developed, and deployed **SAP CPI** integration flows (**iFlows**) to connect **SAP S/4HANA**, internal banking systems, third-party APIs, and external partner applications.
- Implemented secure data exchanges using **REST**, **SOAP**, **OData**, **IDoc**, **SFTP**, and **AS2** protocols to support payment processing, financial reporting, and customer account systems.
- Configured and enhanced integration logic using **Groovy scripting**, **Message Mapping**, **XSLT**, **Content Modifier**, and **Value Mapping** components to meet complex enterprise requirements.
- Ensured secure connectivity across on-premise and cloud environments using **SAP Cloud Connector**, **OAuth 2.0**, **SSL certificates**, **SAML**, and encrypted channels aligned with **enterprise security policies**.
- Collaborated closely with functional teams (Finance, Risk, Compliance, Treasury) to translate business requirements into scalable **SAP BTP Integration Suite** solutions.
- Monitored and troubleshoot production and pre-production integration issues using **SAP CPI Monitoring**, **Message Processing Logs**, and custom alerts to maintain SLA compliance and operational performance.
- Participated in large-scale **SAP S/4HANA transformation initiatives**, including integration rationalization, enhancement of legacy interfaces, and consolidation of middleware artifacts.
- Developed reusable integration templates and patterns to reduce cycle times and standardize integrations across business units such as payments, ledger posting, and data movement.

- Provided ongoing support, root-cause analysis, and corrective actions for integration errors, performance bottlenecks, and message failures in collaboration with application support teams.
- Documented technical designs, integration specifications, and operational runbooks, and coordinated delivery activities using **JIRA**, **Confluence**, **Git**, and **Postman** for testing.

SAP CPI Consultant

Bal Pharma Limited, Bangalore, India || Jan 2022 - Jun 2023

Responsibilities:

- Designed and developed integration solutions using **SAP CPI** and **SAP Integration Suite** to support pharmaceutical manufacturing and business processes.
- Implemented **cloud and hybrid integrations** between **SAP ECC**, **SAP S/4HANA**, and **non-SAP systems**, ensuring reliable and secure data exchange.
- Built and enhanced **CPI iFlows** using **Groovy scripting**, **Message Mapping**, **Value Mapping**, and adapters such as **REST**, **SOAP**, **IDoc**, **RFC**, and **SFTP**.
- Supported integrations across core SAP modules including **MM**, **SD**, **PP**, and **QM** to enable end-to-end supply chain and production workflows.
- Configured security mechanisms using **OAuth 2.0**, **X.509 certificates**, **SSL/TLS**, and secure credential storage within **SAP BTP**.
- Implemented robust **error handling**, **message monitoring**, and **exception management** using **SAP CPI Monitoring** for production support.
- Collaborated with **functional consultants**, **ABAP developers**, and **business users** to gather requirements and translate them into integration designs.
- Assisted in **interface testing**, **UAT support**, and **production deployments**, ensuring compliance with validation and quality standards.
- Maintained **integration documentation**, **interface specifications**, and supported **transport management** across system landscapes.
- Participated in **Agile project delivery**, contributing to sprint activities, issue resolution, and continuous improvement initiatives using **JIRA** and **Confluence**.

SAP CPI Consultant

Nike, Bangalore, India || Jun 2020 - Dec 2021

Responsibilities:

- Designed and developed enterprise integration solutions using **SAP CPI** and **SAP Integration Suite** to support global retail and supply chain operations.
- Implemented **cloud and hybrid integrations** between **SAP ECC**, **SAP S/4HANA**, and multiple **non-SAP systems**, ensuring high-volume and real-time data processing.
- Developed and maintained **CPI iFlows** using **Groovy scripting**, **Message Mapping**, **Value Mapping**, and adapters such as **REST**, **SOAP**, **OData**, **IDoc**, and **SFTP**.
- Built and consumed **RESTful APIs** and supported **API-led integration** patterns to enable scalable and reusable integration services.
- Configured secure communication using **OAuth 2.0**, **X.509 certificates**, **SSL/TLS**, and secure credential management within **SAP BTP**.
- Performed **error handling**, **message monitoring**, **logging**, and **performance tuning** using **SAP CPI Monitoring** to ensure stable production operations.
- Collaborated with **SAP functional teams**, **ABAP developers**, and **business stakeholders** to gather requirements and deliver end-to-end integration solutions.
